Shrinkage pulls noisy per-condition ASD deviations toward 0
Sleep disorders (organic)
Behavioral syndromes (eating, sleep)
Epilepsy & seizures
Headache & migraine
Movement & other episodic disorders
Congenital digestive anomalies
Anxiety, stress & somatoform disorders
Congenital musculoskeletal & limb anomalies
Personality disorders
Acute upper respiratory infection
Refractive errors
Pain syndromes
Eyelid, lacrimal & orbit disorders
Diabetes & glucose regulation
Chromosomal & other congenital syndromes
Glaucoma
Other endocrine gland disorders (pituitary/adrenal/gonadal)
Congenital skin & integument anomalies
Congenital cardiovascular anomalies
Strabismus & ocular motility disorders

What the ASD-vs-NT elevation is made of
Anxiety, stress & somatoform disorders
Sleep disorders (organic)
Refractive errors
Chronic upper respiratory (rhinitis/sinusitis/tonsil)
Obesity & overnutrition
Hearing loss & other ear disorders
Functional & other intestinal (constipation, IBS)
Otitis media & middle ear disorders
Metabolic disorders (lipid, fluid/electrolyte)
Movement & other episodic disorders
Congenital musculoskeletal & limb anomalies
Behavioral syndromes (eating, sleep)
Asthma
Epilepsy & seizures
Oral & dental disorders
Congenital cardiovascular anomalies
Strabismus & ocular motility disorders
Conjunctivitis & conjunctival disorders
Visual disturbances & blindness
Otitis externa & external ear disorders
shared NDD (p_rest − NT)
